Calls for articles – revision to 90.902. include judge Matthewman in e discovery harmonization.

J Matthewman – suggests eDiscovery collaboration issues with remote working going on during covid. Also, the remote collaboration platforms may create ESI –related discovery issues, local storage, and personal storage.

Zach - Preservation demands may have to specify personal use. Darrin – there has been heavy push back. (Did you have the rule 26 conf to talk about what preservation looks like?).

J Matthewman – biggest issue is preservation. To avoid spoliation fights.

Zach – cle –on preservation protocols for home-worker. Maybe an article also.

Sara – for June 2022. Cle presentation.
