CLTC Overview:

The Computer Law Technology Committee meeting was held on January 26, 2022 at 2pm. The CLTC's Data Privacy Task Force has been preparing a white paper on HB 9, specifically for Sen. Bradley and her staff. In addition to that bill, the CLTC is reviewing a Digital Currency bill and the Online Marketplace bill. Later this year, the CLTC plans to put on two CLEs, one around gaming law and one discussing the computer law bills that pass this legislative session.
