## 9. CLE Presentation: “Financial Statement Literacy in Business Litigation”

**Presented by: Petrucelli, Piotrowski, & Co., Inc.**

*Financial Statements can be a critical piece of evidence in Business Litigation. Understanding how and why financial information and statements are developed, through exploring the basic principles, types and sources of financial information used in litigation, will allow us to simplify the information conveyed. The presentation will cover the basics of financial statements and potential misstatements, manipulations, and miscommunications. The presentation will also give examples of how to use financial information from various sources as a starting point in their client representation. We will answer fundamental questions such as: Does the financial information support my Clients claim? Is an Expert needed to develop reasonable conclusions and present those conclusions?*
